Staying [the course with Darren] was the best decision.
I have a new fire inside of me.

I was at rock bottom. I lost several of my team members. I tend to be a drive-by delegator and expect everyone to be wired like me... I needed to learn some things to help ME be better. A better wife, mom, sister, daughter and leader is my number one priority. Staying [the course with Darren] was the best decision. I have a new fire inside of me and for the first time do not worry about where business will come from.

The skills and habits that I have been building under Darren's mentorship have

totally transformed my life.

15 years ago, I was playing small. I was weighed down with limiting beliefs. I had no idea that they were sabotaging me. The skills and habits that I have been building under Darren's mentorship have totally transformed my life. Nothing is too big. I PLAY FULL OUT NOW. It was my operating system that needed the reboot.
